Cook Thoroughly
Cook food to a safe internal temperature to destroy harmful bacteria. Meat and poultry cooked on a grill often brown very fast on the outside. Use a food thermometer to be sure the food has reached a safe internal temperature. Whole poultry should reach 180°F; breasts, 170°F. Hamburgers made of ground beef should reach 160°F; ground poultry, 165°F. Beef, veal, and lamb steaks, roasts and chops can be cooked to at least 145°F. All cuts of pork should reach 160°F.

Natracare was developed in 1989 by Susie Hewson, and today her products have become the natural choice for all thinking women. She created the range of 100% cotton tampons and totally chlorine-free pads and panty liners, as an alternative to the common brands generally available to women. Natracare certified organic, 100% cotton tampons and feminine wipes are never chlorine bleached and are free of synthetics and irritating, harsh chemicals. The full range of sanitary pads and panty liners are made from only natural materials, which is an important factor in why so many women choose Natracare. They wish to restrict their contact with synthetic materials, unnecessary chemicals and irritating additives and preservatives as well as avoiding the synthetic materials that continue to pollute our environment.
